Description / Action:

- Update routes/BOMs to reflect new drawing revisions
- Verify D119-646-313/-314 kits in stock conform to released drawings
- Wait for official FAA acceptance prior to shipping kits to Agusta.

ECN Verified & Complete:

Date: FEB 0 2 2016

RE: ECN16-510

Kim,

With respect to your questions:

- 1) Agree that we should have ticked "Parts Must Comply"
- 2) These kits are NOT waiting on IIN Rev D. IIN Rev D will have to be included on the next MDL revision
- 3) We should get FAA acceptance by the end of this week for D119-646-313/-314

Hope this helps.

Regards, David

Subject: ECN16-510

Hi David,

Sorry to bother you but I need a bit of clarification on this ECN. It states that "Previous Parts Satisfactory" but in the action section you're asking production to make sure kits in stock conform to released drawings. I think it should read "Parts Must Comply". That would mean any preliminary parts made would have to be reworked to released drawings or scrapped if necessary.

Also, are these two kits and the drawings still waiting on the IIN at Rev D that Alex was working on? I noticed that the SR and MDL are at the "under regulator review" stage in the vault. Alex had taken out an ECN in 2015 to release the IIN at Rev D, D3887 and D3905 at Rev E (which still haven't been released) and the MDL at Rev K.

In regards to this ECN I can take the PRELIM off of the drawings and -313/-314 parts and leave the attribute with "TBD". That would allow production to make and stock the parts but not be able to ship or sell them until final FAA approval.

Please let me know how I should proceed.

Thanks,

Kim Johnston
